

Information to system developers regarding final tests for Entry Summary Declarations

This information is intended for system developers/system vendors who plan to develop support systems for sending and receiving electronic messages relating to Entry Summary Declarations (ENS).

Remember:

- when testing for approval of an EDI system and testing a tailor-made system, it is expected that these final tests are carried out correctly
- the number of final tests to be carried out depends on what the system is intended for
- final tests may not be older than one month.

Final tests – for system vendors, when testing for approval of an EDI system

System developers who are testing for approval of a system for AIS must perform final tests number 1-11.

- The final tests can be downloaded from tullverket.se, on EDI testmaterial för import, export och föränmälan Technical final test ICS IE315 max. filled fields and repetitions 3.0.
- The technical final test can be downloaded from tullverket.se, EDI för systemutvecklare.

Final tests – for system developers of tailor-made systems

An in-house tailor-made or compiled system (unique for a company) must perform final tests number 1-6.

Contact EDI test

Please notify edi.test@tullverket.se when all relevant final tests have been performed with the expected results.

Enter the details of the customs system and version, your EORI number and the final tests linked to the MRN number.

All final tests are checked by Swedish Customs' function for EDI testing. When they are approved, the function for EDI authorisations is notified and will contact you with an approval when all other conditions are fulfilled.

We reserve the right to make additional requirements, as well as the right to publish new final tests on tullverket.se.

If you have any questions regarding final tests, you are welcome to contact the EDI test function, edi.test@tullverket.se.

Other information

Technical specifications

More technical information on electronic documents/messages regarding ENS is available in the technical specifications, SCTS-AIS, ICS phase 1.

The technical specifications can be downloaded from tullverket.se, [EDI tekniska specifikationer](#)

Final test – for permit-holders with an approved EDI system

- Information providers who have an approved EDI-system for ICS need only perform final test number 1.

Questions or problems?

If you have any questions or problems while testing, you are welcome to contact the EDI test team on edi.test@tullverket.se or call +46 771 520 520, choose Technical support and ask for the EDI test team.
